Results That Speak Volumes

- At **SHR Software Solutions,** the management travelled extensively which made it difficult for them to get continuous visibility on work performance in their different centers. It was also pertinent for them to understand current work styles to manage overtime better and improve time efficiency and productivity. There were challenges in governance without a clear picture on how teams were spending their time, lack of reporting and absence of segregation between productive and non-productive activities. V-Office worked as one stop, single click solution to them where their full organizations was at disposal at single login and accessible across geography. There was no training required for using V-Office and it was "ZERO" complexity solution which solved 100% of management challenges.

- With a single tool, we were able to see the following results-

  - Resolved the organization management complexity by 100%

  - 72% time saved from manual reporting and status meetings

  - 100% Reliability of service and no training required to use
