CASE STUDY

Sukalpa Technologies Pvt. Ltd. Increased Productivity and Saved cost with V-Office
About Sukalpa Technologies Pvt. Ltd. LTD.

Suklapa Technologies is a group of smart and friendly people with strong focus on detail and are sticklers for deadlines. They are recognized as one of the fastest growing digital companies with strong foothold of innovative ideas, seasoned skills and ability to deliver a product, services and solutions with utmost perfection to global customers. They enhance their customers business by the highly skilled professionals with innovative technologies. Sukalpa believes in continuous improvement.

We came across V-Office when looking for a one-stop solution to all of our office automation needs. We had tried out a couple of other solutions before, but this was by far the best of the bunch. It is user friendly, simplifies work, and makes it easy to keep track of all of our projects, which saves us a lot of time. This is the perfect solution for any company that wants to simplify the way they work.

GROWTH & IMPACT

5 Man-hours
reduced per day

27% Operational cost
reduced

18% Increase
in Quarterly
Revenue

Results That Speak Volumes

- **Suklapa Technologies Pvt. Ltd.** chose to digitize their organization so to reduce time and efforts of employees and increase productivity across their various departments. Synchronization of data across departments and reporting was a big challenge for them as the organization grew. They tried many tools but more time was consumed in making different teams learn different tool usage. Instead of saving time and productivity, it consumed more time, cost and affected productivity badly. Finally, trying V-office was such a user friendly experience. Every team had to log in to same web based tool and everything was easy to access, all at one place and no tedious tool learning process was required. It was just To-go experience. All the necessary modules were included to run and manage an office effectively.

- With a single tool, we were able to see the following results-

  - 18% Increase in Quarterly Revenue

  - 27% Operational cost reduced

  - 5 Man-hours reduced per day across departments
